

World Language Class

Why Learn Another Language?

Ready-to-go scavenger hunt
reading game!

Take a look
inside!

LOOKING FOR WAYS TO BUILD CLASSROOM COMMUNITY RIGHT AWAY?

Instructions

After reading the mission below, you may start at ANY of the 10 reading cards. Your job is to determine the code word for EACH card. The code word will always be revealed on a different card.

At the bottom of each reading card is a question. The answer, or "code word", must be written on your answer sheet. Be sure you write the code word next to the card number where the question appeared. Start writing your answer in the box next to the number. Do not leave spaces if the answer is 2 words.

Once all code words have been recorded, unscramble the letters to solve the mystery and answer the final question! The letters in the gray-shaded boxes will reveal the first word in the final answer. The circled letters will reveal the 2nd word in the final answer.

Mission

John and Ava are twins. They are both juniors in high school this year, and know that they need to choose their classes for next year soon. They are also thinking about a college major. Should they already know what they want to study in college? John loves the Humanities; History and English are his favorite classes. Ava prefers STEM courses. She likes Science, Math and Technology classes. But their school counselor keeps pushing them to stay with their World Language classes. They can't figure out why they need to keep taking them though! They're kind of hard! And they're not required to

John and Ava dream about the opportunities they will have as young adults. They want to travel the world, take road trips, and study abroad. They are both very social and enjoy meeting new people. John and Ava have been raised to be generous and helpful people. They hope that they can find a college that will really challenge them and their personalities and passions! They want to figure out what classes they should take in their year of high school. They want to figure out why they should take them and how they will benefit them?

Want students to understand the benefits of learning a new language?

Need a fun way to get kids up, talking and working together?

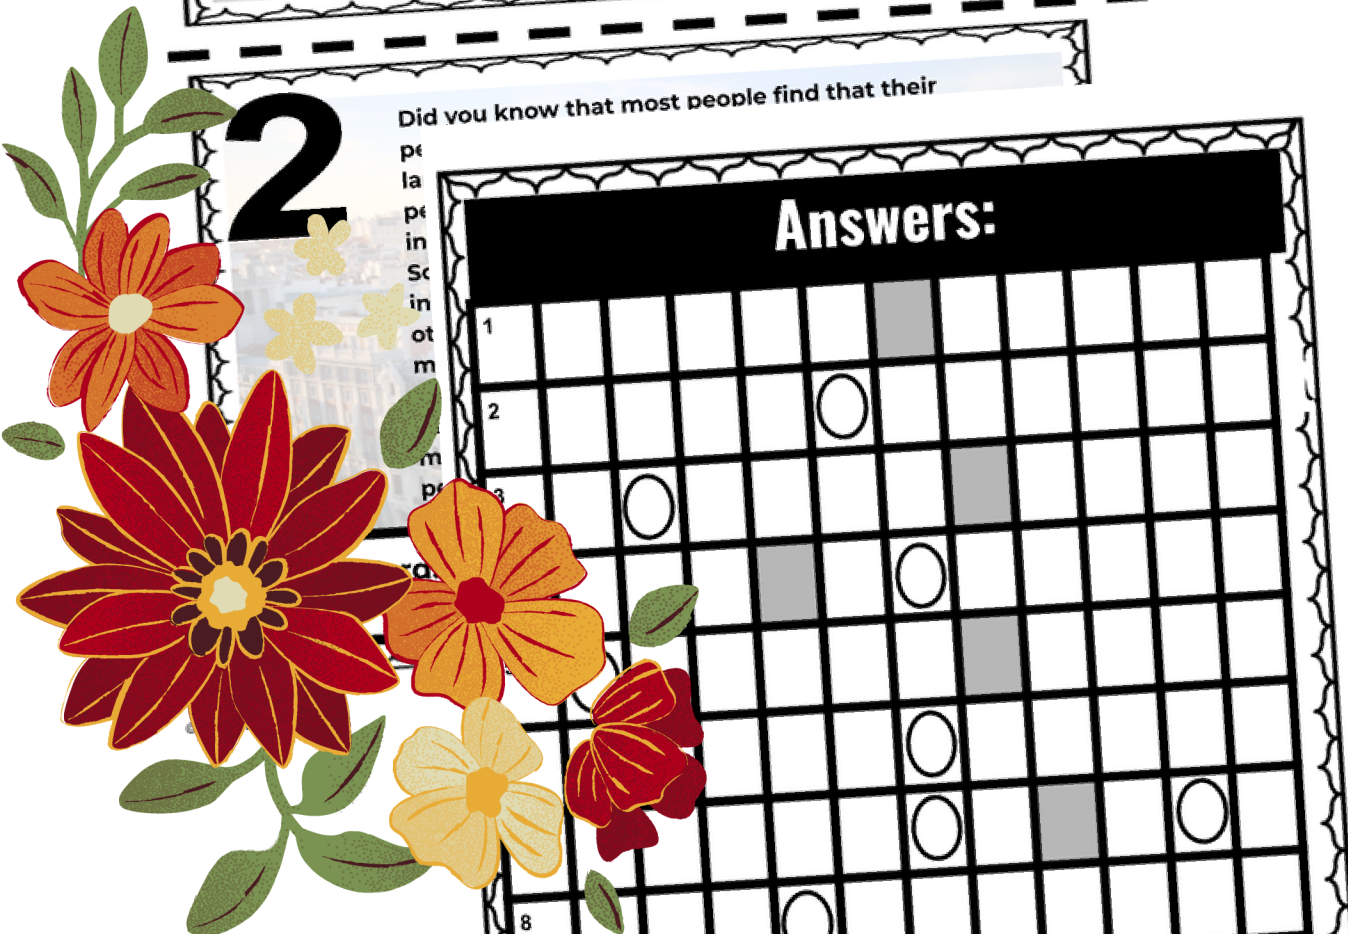

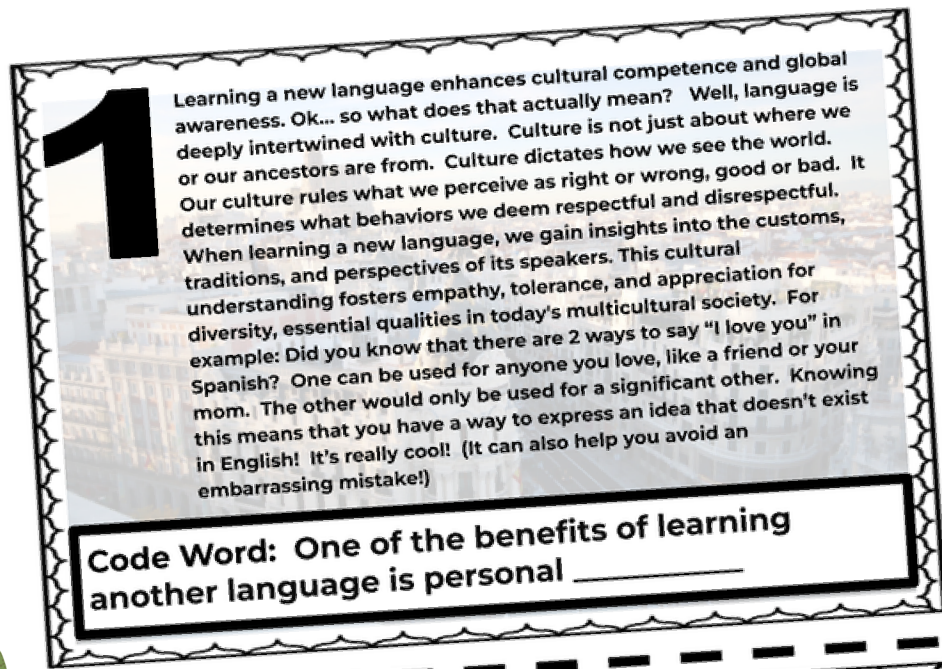

Try This!

Students are solving a mystery by figuring out code words!

The story gives 10 teen-friendly reasons to learn a new language!

How To Use These

Pair students and go over the instructions and mission.

Hang story cards around the room. Students will walk around to read.

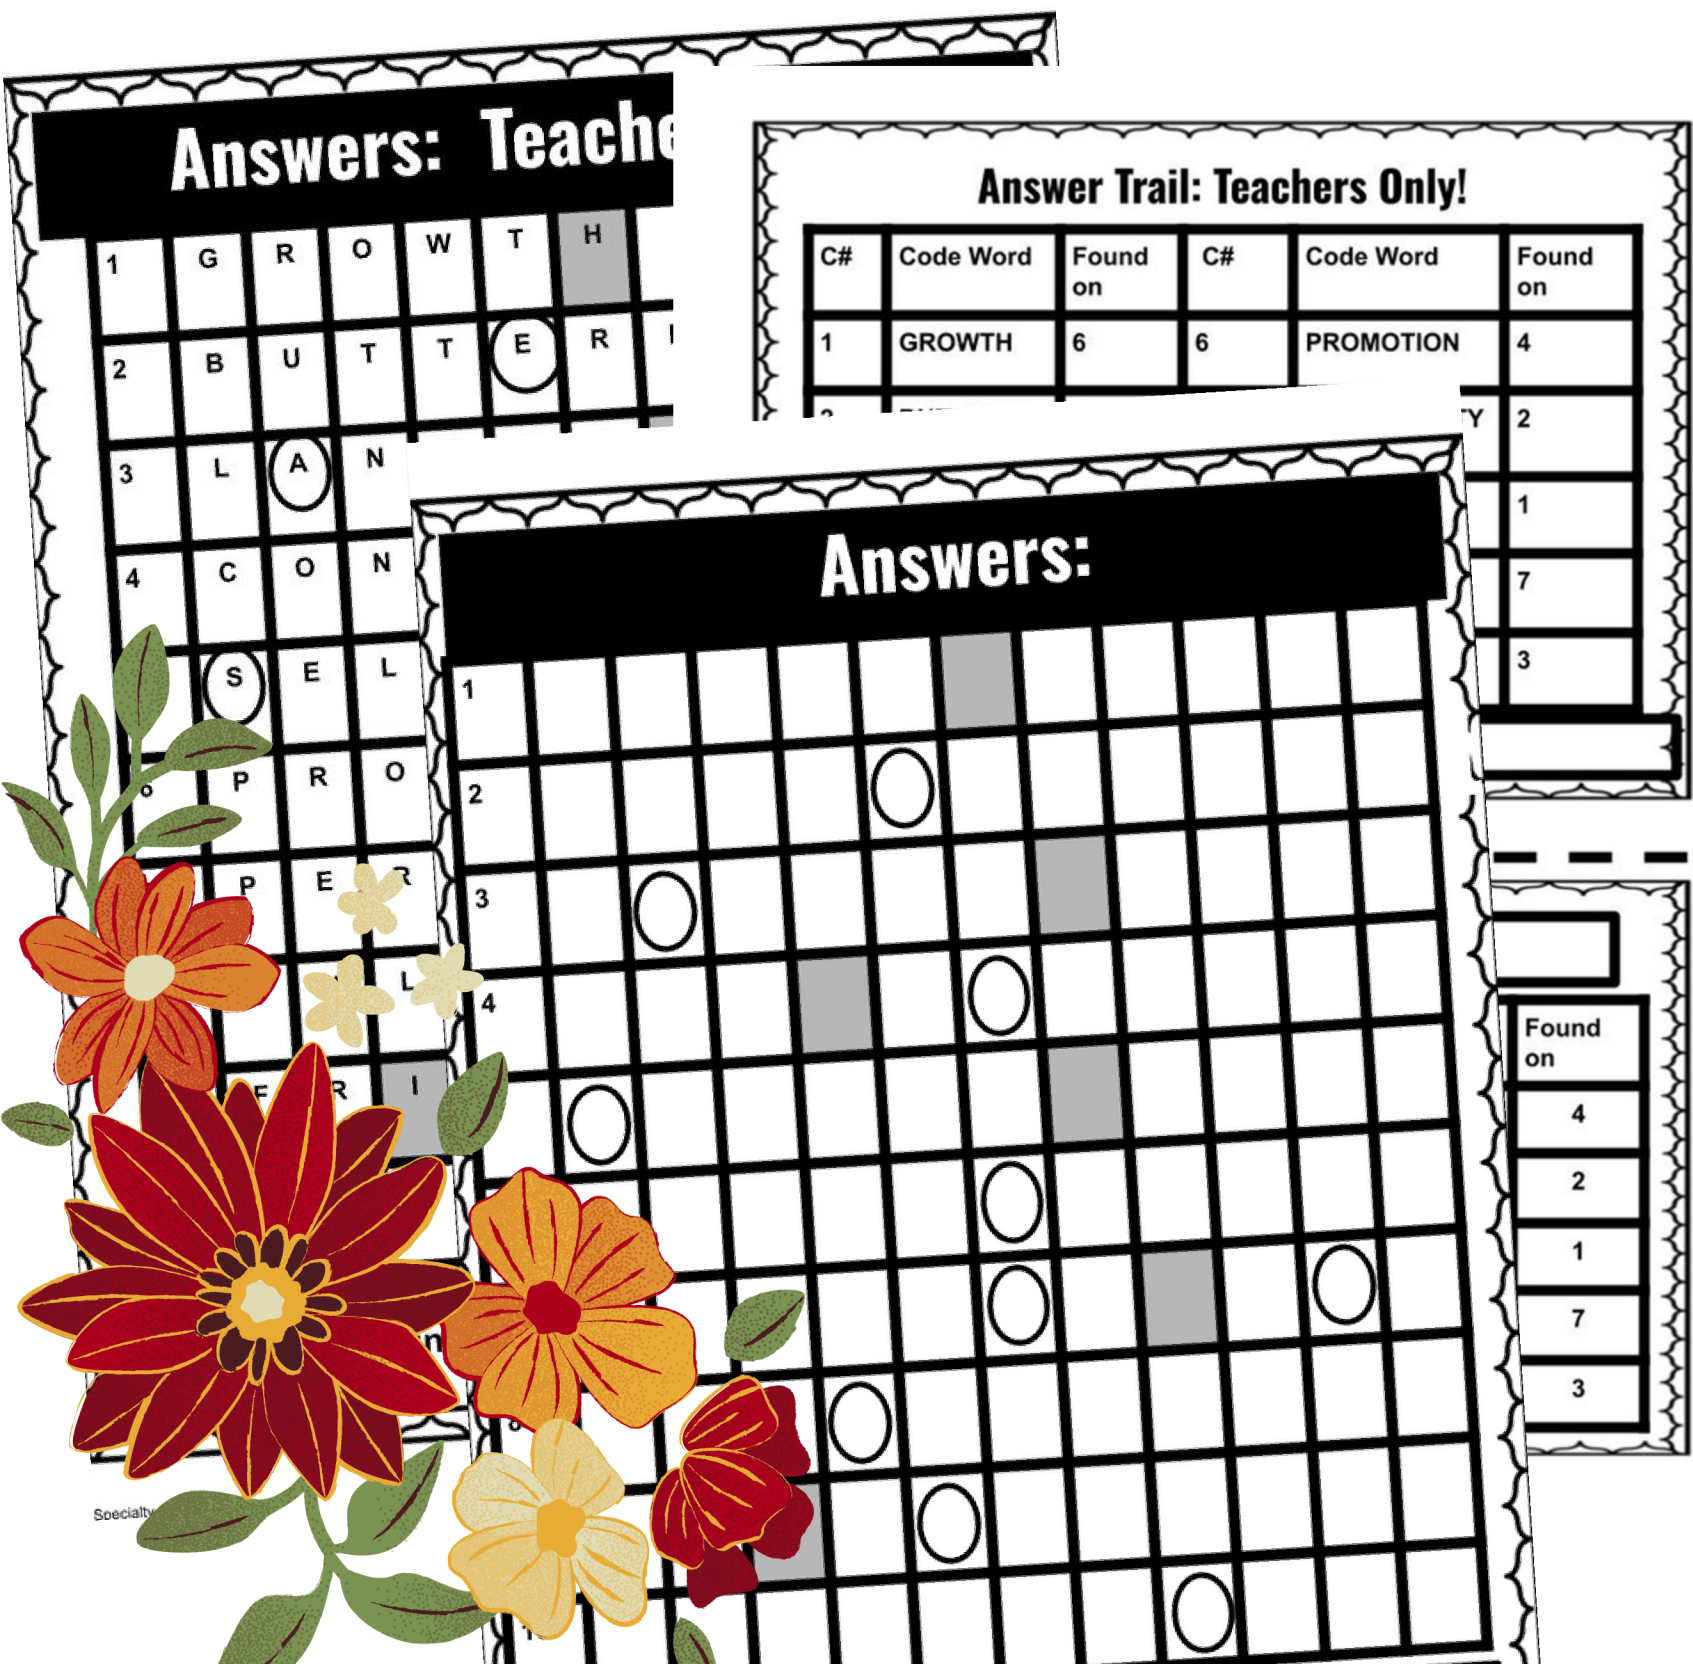

Student grid answers

Then they unscramble the special letters to solve the mystery!
